

**Integrated Management System (IMS)
Outreach Application Release Memo
January 23, 2010**

The Office of Information Technology (OIT) as of today has released an enhanced version of the Integrated Mission System (IMS) Outreach application. The screens have been expanded to be full screen as are the other systems that comprise IMS.

The functionality of the Outreach applications has remained the same with the exception of the following enhancements:

1. In Find Events, the “Initiative Name” drop down has been modified to append the Lead Office and Fiscal Year of the Initiative to the display.
2. Note input has been enlarged to accept the standard 4000 characters; this matches notes in the other IMS applications.
3. The selection criteria that determines which Initiatives and Events to display has been modified to include the Lead Office.
4. The Initiative “Type” “CHAIRWOMAN” label has changed to “OCH”, the acronym for “Office of the Chair” to make it gender neutral, and to be in line with the labels for the other Initiative Types, “LEP” and “NEP”.
5. The Event “Position Type” “Chairwoman” value has been changed to “Chair”.
