

Notification of Upcoming IMS Release 6.4.5

The Office of Information Technology (OIT) is pleased to inform you of the upcoming IMS 396 Reports Release 6.4.5 scheduled for deployment on Thursday, February 13th, 2014. This release features the conversion of select IMS 396 reports from Oracle Reports to the BIRT (Business Intelligence Reporting Tool) reporting software, and the ability for user to receive email notification when the processing of the 396 report has completed along with an attachment of the subject 396 report.

1) The following reports have been converted from Oracle Reports to the BIRT reporting software. The users should not notice the difference. When the user presses the "Summary" button in the Reports Facility, the BIRT version of their report appears on their screen.

- Federal Hearings 396 Summary Report (SCR 5629)
- Contract Performance 471 Summary Report (SCR 5626)
- Private Mediation 396 Summary Report (SCR 5624)
- Private Sector Activity 396 Summary Report (SCR 5623)
- Systemic 396 Summary Report (SCR 5625)

2) When running the following 396 processes, the user currently gets an email when processing completes. After the release, the corresponding 396 summary report will also be attached to the email.

- Private Mediation 396
- Private Sector Activity 396
- Systemic 396
