

Integrated Mission System
Private Release Memo
Release Date: 08/27/2010

Pilot of New Report – Staff Mediation Activity:

- The Staff Mediation Activity can be used by offices to track a single office or staff mediation workload. The report can be printed with a single detail line or multiple lines of detail, and can include a page break by staff or totals for the office.
- Detail lines have been developed to convey as much information as possible with less ambiguity about the staff responsible for the activity. On a staff page break report, actions for which the current page break staff are responsible are printed in standard text format; actions by another staff are italicized. This means that if Joe did a J8 and J9, and Pete did a J4 and the charge is still pending in Pete's workload, then the detail line for Joe's page break will show the J4 and that the charge is pending end but the information will be italicized. Pete's page break will show the J8 and J9 information in italics.

- The report is in a pilot phase. We will be collecting comments and questions over the next few months and will send out an enhanced version of the report later this year or early next year.
- Also coming in future months is the Office Mediation Activity which can be used to gather District and National totals.

Correction to Mediation 396 Detail Lines

- Some users had reported difficulty printing or viewing detail lines for the Mediation 396 report. This has been corrected.
- Based on requests from the user community, the ability to print or view detail lines associated with Impasses has been added.

Correction to Hearings 396

- ORIP reported that the benefits page was not being printed correctly. This has been corrected.
