

Integrated Management System (IMS)
Private Release 4.3.0 Memo
July 16, 2012

Login Module

- Corrected an issue with FRMLOGON to check for multiple records so that new users would not be allowed to have initials and usernames that were previously in use. SCR 5346

VM Information Tab

- Disabled the FEPA Number field when a charge is viewed as read-only. SCR 5236

Respondent Tab

- Corrected an error, 'No data found', which was displaying on the Respondent tab. SCR 5235

Action Tab

- Resolved the issue of an error displaying when there are over 99 actions on a charge. SCR 5296

Allegation Tab

- The statute field in FEPA_Charge_Inquiry is now being cleared when a FEPA allegation is deleted. SCR 5321

Additional Address

- In A/M Additional Address dialog, when the Next button was pressed, the CP, EEOC Number and FEPA Number fields were being cleared. This has been corrected. SCR 5237

Form Letter Facility

- The issue of making sure that all required fields are filled in before a group of forms/letters are generated has been resolved. SCR 5338

AM Actions

- Corrected the issue with the FEPA office not displaying for certain 'E' actions. SCR 5281

- EEOC offices can now successfully reopen a closed FEPA charge and transfer it to another FEPA office. SCR 5262
- When an EEOC office enters an "EH" action (FEPA Granted Credit on Receiving Charge on behalf of EEOC) then any "F5" (EEOC Accepts Charge Taken by FEPA On Behalf of EEOC) is updated to the same contract_seq. It will also correct CY if the CY was entered wrong by FEPA users. SCR 5256
- If the EEOC enters an "E1" action (FEPA Final Action Accepted) or "E5" action (Credit Granted to FEPA for "Substantial" Work Completed), then any "F0" (FEPA Final Action Submitted to EEOC) & "FB" (Case Submitted for Credit Other) actions are updated to the same contract_seq. It will also correct the CY if the CY is entered wrong by FEPA users. SCR 5256
- The error displayed after adding E actions (FEPA by EEOC) on a FEPA charge has been resolved. SCR 5274
- When entering a "J" action to end meditation the user is no longer able to bypass entering the Unit Number before submitting the action, thus ensuring the Reporting Office, Function and Unit will not be null. SCR 5319

Reports Facility

- Placed the Exit button in the tabbing order on the Reports Facility. Also added a tooltip and hint. SCR 5287

State & Local

- For V/M State/Local dialog, a couple of issues were corrected: 1) not allowing wildcards in any position of the contract number field, and 2) ensuring that the Find button is enabled appropriately for FEPA users. SCR 5238

Integrated Management System (IMS)
Private Release 4.3.0 Memo
July 16, 2012

Contract 471 Report

- Now users with read levels 2 or 3 are able to run the Contract 471 report for their office even if they don't reside in a district office. SCR 5285

IMS Database Change

- New position title, **Acting Commissioner**, has been added. SCR 5129

IMS Utilities

- Removed the Form Letter Template tab in Utilities and added a Mange Templates button for the new Template Management Service. SCR 5311
- In the Utilities Staff dialog, when a staff record is changed from one function and/or unit to another, a procedure is ran so that the new Reporting office/ Function/Unit are no longer missing after the auto-generated B4 action. SCR 5271
- Increased the length Address Lines 1 and 2 to 60 characters on the Utilities/Office dialog. SCR 5335
- Creation of new Template Management Service. SCR 5312
