Reports Release Memo

April, 2011

Private Cause Finding Report

- The GINA Statute can now be entered as a parameter. To select charges with a GINA statute, simply enter a “G” into the Statute Parameter. To select charges with only GINA statutes, enter “GO” in the Statute parameter. Once all reports have been modified, the GINA statute options will be added to the dropdown.
- The report was corrected to select only allegations which had a cause finding when the Statute parameter is used.

Private Resolutions Report

- The GINA Statute can now be entered as a parameter. To select charges with a GINA statute, simply enter a “G” into the Statute Parameter. To select charges with only GINA statutes, enter “GO” in the Statute parameter. Once all reports have been modified, the GINA statute options will be added to the dropdown.
- The report was modified to show two detail lines of information when detail lines are printed. The new report now includes information on on-sites, subpoenas, and other requested information.

Private Blank Days Report

- The GINA Statute can now be entered as a parameter. To select charges with a GINA statute, simply enter a “G” into the Statute Parameter. To select charges with only GINA statutes, enter “GO” in the Statute parameter. Once all reports have been modified, the GINA statute options will be added to the dropdown.
- The report was corrected to include charges which were closed between the “As Of Date” and the “Projected To” date in order to facilitate goal tracking.

Private Systemic 396

- The report was corrected to include Directed charges which were previously being excluded from the report.

Private Charge Receipts Report

- The GINA Statute can now be entered as a parameter. To select charges with a GINA statute, simply enter a “G” into the Statute Parameter. To select charges with only GINA statutes, enter “GO” in the Statute parameter. Once all reports have been modified, the GINA statute options will be added to the dropdown.

Private Inquiry By Respondent

- The GINA Statute can now be entered as a parameter. To select charges with a GINA statute, simply enter a “G” into the Statute Parameter. To select charges with only GINA statutes, enter “GO” in the Statute parameter. Once all reports have been modified, the GINA statute options will be added to the dropdown.

Private Onsite Activity Report

- The GINA Statute can now be entered as a parameter. To select charges with a GINA statute, simply enter a “G” into the Statute Parameter. To select charges with only GINA statutes, enter “GO” in the Statute parameter. Once all reports have been modified, the GINA statute options will be added to the dropdown.
